**Smoothwall Digital Safety Training**

# The latest digital safety guidance and trends

## Keep your students safe online

The forever changing digital environment can make it difficult for DSLs and other education professionals to understand and stay up to date with all the latest digital safety risks.

However, this knowledge is necessary to keep your pupils safe online.

Our School Digital Safeguarding Specialist team offer a wide range of CPD certified digital safety training sessions to schools and colleges across the UK.

### What would the training cover?

We cover a range of digital safety topics tailored specifically to your needs and audience, including new and emerging online behaviour trends across gaming and social media platforms.

The parent and carer sessions focus mainly on providing information about the latest digital trends as well as advice on where to seek help and support. We will help parents learn how to engage with their children and create a safe, positive digital environment for the whole family.

### Who are the sessions for?

- DSLs, teachers and other school staff
- Parents and carers
- Students
- Governors
- Trust members

### Session format

- Half-day (4 hours) or full-day (7 hours)
- Face-to-face or online
- Includes interactive and reflective tasks

HIGHGATE SOLUTIONS

## Key benefits

- ☑ Helps you promote safety, welfare and wellbeing within your community.

- ☑ Fully up to date with legislation, guidance and best practice advice.

- ☑ Helps staff members stay up to date with online safety as required by the

## Why train with Smoothwall?

Our purpose at Smoothwall is to empower schools, colleges, multi-academy trusts and local authorities to digitally safeguard the students in their care.

Our solutions are both innovative and dependable. They are engineered from the ground up to address the safety and well-being of students, the time pressures of teachers and the cost constraints of leaders.

Our training sessions are designed to keep our customers one step ahead in the evolving world

## Get in touch

If you would like to learn more about Smoothwall's training sessions speak to our safeguarding experts at Highgate on **0300 140 0000** or email **enquires@highgate-it.co.uk**

Smoothwall has delivered staff e-safety training and multiple parental workshops at Manchester Grammar School.

These have been extremely well received by everyone who has attended. The truly impressive thing about the training Smoothwall offers is that it goes so far beyond the standard e-safety homilies.

Their trainers are safeguarding experts who offer absolutely up to moment expert guidance on the online world on a wide range of areas from trends on social media and in-game apps to digital literacy and online manipulation.

In our sessions, Kat Howard never takes a 'one size fits all' approach to the training and workshops. She always takes considerable pains to fine tune the content of her presentations to meet the safeguarding needs of her audience. I cannot recommend her work and that of Smoothwall highly enough.
